

1. Put up a tent

You can make a den or a shelter in your garden or with other beavers. This gives you a good idea of what you need to be comfortable and protected outside.

I then put up a large teepee to see how that compared. For me still not big enough. Needed a waterproof floor. Perhaps I could include the picnic blanket. But what if it rained?

Top tip: Read the instructions and watch YouTube videos to help.

I then put up a pop up tent. These are super quick to put up anywhere. Then is used the guy ropes and tent pegs to secure to the ground.

I then put up our 2 man tent. It needed poles threaded through and the guy ropes secured with tent pegs.

Top tip: search for a YouTube clip to show you how to pack away a pop up tent.
