

## 5. Pioneering project

Gather 7 lolly sticks and 5 elastic bands.

Take 5 lolly sticks and make a pile with 2 elastic bands either end

Take the remaining 2 lolly sticks and attach at one end with an elastic band.

Then open then 2 lolly sticks slightly and slide the pile of 5 lolly sticks in and band around where the cross is shown.

Hold down the front and ping the back of the catapult to launch. I used a crumpled postik note.

### Catapult
